

# WE KNOW OIL AND GAS

Whether you're rigging up or servicing a well, drilled a duster or found yourself knee deep in sludge, you need coverage you can count on from an insurance broker who knows your industry.

With more than 25 years' experience in the oil patch, Sisk & Co. understands your insurance and safety needs – no matter what size your operation is or where you are in the exploration process.

Call us to learn about these and other safety services:

- Contract and compliance review
- Claims advocacy and monitoring
- Onsite loss-control surveys and safety audits
- Contractor-selection support and risk profiling
- Crisis management services and emergency preparedness plans

Sisk & Co. has the reputation and experience to handle the coverage you need to operate in the oilfield.
